## hydrobooster

offers natural and harmonious  
results guaranteeing:

1

### RELIABILITY

because IBSA produces a biotechnological ultrapure hyaluronic acid (not of animal origin) and has full control of all production processes.

2

### HOMOGENEITY

thanks to the perfect integration in the skin, resulting in a natural appearance and adapting to the unique characteristics of the face.

3

### RESULTS

with an immediate noticeable improvement, long-lasting results and reduced downtime owing to its high tolerability.

## IBSA

### Quality Made in Italy

Quality is achieved through attention to details; not always visible, but always essential.

IBSA is unique in this vast market, owing to its complete control of the hyaluronic acid lifecycle; from the raw material production to the finished product.

IBSA's wide range of dermoaesthetic products, Made in Italy, are adaptable to meet various patient needs, with the goal of biorejuvenation.

The knowledge, ongoing scientific research, technological development and state-of-the-art production processes makes IBSA one of the leaders in hyaluronic acid production.
